ELG Team Leader

QRPers NZ

The QRPersNZ Group is alive and well, and operating a weekly net on Thursday nights at 0800 UTC on 3.690MHz. You do not have to be a member of the group to join in. Our only request is that you operate 10w or less. Check-ins are called for at 8.00pm, just give your callsign and net control will put you on the list. A good test of antenna efficiency.

On Saturday 26th October from 07.30pm to 9.30pm we run a fun activity called 'GO QRP NIGHT', where QRPersNZ operators try to work as many other QRP stations as possible in two one-hour sessions. This has been opened up to non-QRPersNZ operators who may contribute contact points to QRPersNZ Group members. Again, we ask that those who wish to get involved please use 10w or less. We are after-all, a QRP Group.

If you'd like to join the group, just send an email to waynezl2oz@gmail.com with your callsign and first name, and you will be put on our membership list. There are monthly newsletters that focus on matters of interest to QRPers, articles about QRP Expeditions and notices of coming events. New members welcome.

CW OPS

Our goal is to bring together Amateur Radio operators who enjoy communicating by Morse Code (CW). CWops encourages the use of CW in Amateur communications, and it supports CW activity through planned events. CWops promotes goodwill among Amateurs throughout the world, and it fosters the education of young people and others in matters related to Amateur Radio.

CWops is International in scope, membership and management. Its focus is the use of CW, whether for contesting, DXing or ragchewing. Moreover, it supports every form of sending — if it's CW, CWops supports it!

The procedure for becoming a member is explained on the Membership page. See the [BYLAWS](#) and the [ARTICLES OF INCORPORATION](#) for the details of how the Club is administered, its goals, and membership process.

To find CWops friends on the bands, look “on the 8’s”: CWops Primary Frequencies (MHz): 1.818, 3.528, 7.028, 10.118, 14.028, 18.078, 21.028, 24.908, and 28.028

CU on the bands soon!

Check them out here:

<https://cwops.org/>

CW OPS also run the CW academy

CW Academy is a program put on by the CW Operators' Club aimed at increasing the number of competent CW operators on the HF CW sub-bands. It addresses all levels of enthusiasts: from those aspiring to become licensed operators who want to learn and use Morse code; to veteran operators who are intent on increasing their CW skills, speed and activity.

Check out their website here:

<https://cwops.org/cw-academy/cw-academy-options/>

New Zealand Net (NZ Net)

The New Zealand Net (NZ Net) is an 80-metre CW net operating every Monday-Friday evening.

All CW stations are invited to check into the net on **3535.0 kHz**, starting at **2100 (9pm) NZT**.

Further information can be had at: <http://radiolnz.com/about-amateur-radio/new-zealand-nets/nz-net/>

Official Broadcast

The Official Broadcast is made on the last Sunday of each month except:

- December when the Broadcast is made on the Sunday before Christmas.
- January when there is no broadcast

The broadcast is made on 3900 kHz, and on the National System and local VHF repeaters.

The broadcast is made at 2000 hours (8:00 pm), with a repeat at 2100 hours (9:00 pm).

Members and Branches are welcome to submit material for inclusion in the Broadcast to the e-mail or postal address shown below.
