Debby says....

During a recent branch visit one of the NZART Councillors was asked a couple of interesting but not easily answered questions, I will attempt to answer and clarify these questions for you.

Reciprocal Licensing – for information on Visitors to New Zealand and New Zealanders traveling to other countries, details can be found on the NZART web site
<http://www.nzart.org.nz/info/visitors/>

While some of the names are a little outdated such as Ministry of Economic Development, (MED), which should now read Ministry of Business Innovation & Employment (MBIE), the content and purpose remains the same.

For persons travelling overseas, there is a link to two sites also from this page, however I recommend researching the country where visiting on their rules, with regard to transmitting on amateur bands.

Overseas Operators applying for a New Zealand callsign. – First of all, the amateur radio license held by the call sign holder must be equivalent to the New Zealand qualifications, and must align with the CEPT HAREC agreement Recommendation T/R 61-01

The applicant, MUST have either permanent residency or hold an indefinite visa for New Zealand

They must be able to provide a permanent physical address, although the postal address may differ.

For any further additional information please feel free to send me an e-mail nzart@nzart.org.nz.

Conference 2020 – the registration form and information for Conference 2020 is now available from the NZART Home Page <http://nzart-conference.nz/>

If registering and making payment by cheque, we do ask they be made out to Conference 2020, please DO NOT include the name NZART on the cheque, as our bank will not accept them for deposit.

That's all for this week...talk soon. Debby ZL2DL

ELG Report

Hawkes Bay ARC has applied for a DMR repeater at Mt Threave, Topo50 BK 241.57 930.08.
The transmit frequency will be 439.2375 MHz, receive frequency 434.2375 MHz

The licence for the existing inverted repeater on 434.000 MHz transmit at Mt Threave has been cancelled recently which allows this to work. (External ARE038)
