

NZART

Established 1926

There is only one
NEW ZEALAND ASSOCIATION of RADIO TRANSMITTERS.

It serves you at local, national and international levels. It deserves our full support if we are to continue to have the frequencies and operating privileges we currently enjoy.

**The Association is what
you and I make it!!!**

NZART Infoline # 483

Headquarters notices

From HQ...

@NZART email problems

I have been advised by Chris Hellyar ZL3LF, he is gradually working through the 300 plus users of the @nzart email reflector.

All branches who use this service should now be working properly, please send an email to Chris webmaster@nzart.org.nz.

There are still several individual emails that need to be moved across to the new Microsoft 365 suite, as each one needs to be done individually.

So I ask for your patience while these emails are migrated to the new system.

Contests & Awards

Contests

H" Night

Commemorating the return of amateur operating privileges after WW2, this event is held on the 8th December each year on 80m AM. Run by Rob ZL2IW, it's a good chance to dust off your vintage (or modern) AM-capable gear and have some fun – full details are on the NZART Contest website <https://www.nzart.org.nz/activities/contests/h-night-contest>

VHF Field Day

December 2nd and 3rd sees the running of this year's VHF Field Day, this is a great contest for individuals or branches to get involved in. Check out the rules on the NZART Contests website and have a go!

JWMFD

Branches are starting to plan for the Jock White Memorial Field Day next year. Get those thinking caps on, what went well last year and what needs improving?

CQ SKN

New Zealand Straight Key Night (Summer Edition) will be held on Sunday 3 Dec from 9pm to 10pm NZT on 80 meters.

SKN honours the original amateur radio mode in an easy-going style. Operators send signal report, name, location, type of key, type of transmitter and power output. Stations are limited to 100W output power. SKN is not a contest - but the operator who gets the most votes for the quality of their sending will win the Bruce Scahill Best Fist Award. This certificate honours Bruce ZL1BWG (SK), who was a dedicated supporter of SKN.

SKN uses the QSY Rule. Any station that calls CQ must QSY after making a contact. This will keep everyone on their toes!

Full details about SKN are available at <https://zl1.nz/skn> or you can email neil@zl1.nz or call ZL1NZ during or after the NZ Net (Mon-Fri at 9pm on 3535 kHz).

SKN is open to all straight key operators, regardless of skill level or speed.

Neil ZL1NZ, SKN Manager

AREC

WE ARE HIRING

National Support Manager

The National Support Manager (NSM) position is a national strategic role responsible for leading a team of functional support specialists, providing specialist support encompassing the provision of training, health, safety and wellbeing, project management, information systems, radio and communications technology, spectrum licensing, and technical advice.

Reporting to the CEO, the NSM will work collaboratively with, and support, all managers, advisors, and others in the organisation to implement and supporting agreed training, operational systems, operational policies, service delivery standards, operational procedures, and will ensure support is provided to the AREC volunteers in accordance with agreed AREC policy.

Establish and maintain a national support framework, a resilient National Support Coordination Centre (NSCC) and National deployable equipment and team(s) capability, to be activated for large and nationally significant emergency events; and to provide a national command and control capability enabling coordination of AREC's response(s).

Closing date: Wednesday, 29th November 2023

Send your cv to
recruitment@arec.nz

If you are interested in the role and would like to view the National Support Manager job description, please email Annalise.admin@arec.nz
